

NOAA Ocean Exploration Curriculum Workshop Hawai'i Institute of Marine Biology-Coconut Island

September 25, Saturday 9:00 am – 3:00 p.m.

Bring the excitement of modern day explorers to your classroom through NOAA Ocean Explorers' website and curriculum - focusing on explorations into extreme environments. The Learning Ocean Sciences through Ocean Exploration Grades 6 – 12 curricula includes sections on incredible deep-sea creatures, ocean exploration, geology, currents, and human impacts and more.

Prior workshop participants are invited to attend a special session tailored to their needs and receive a \$100 stipend for completing the 2 workshop cycle.

ALL participants receive a full teaching materials packet. Stipends to cover travel costs from neighbor islands will be provided.

NOAA Ocean Explorer: Marine Educators' Night Waikiki Aquarium

September 25, Saturday 6:00-8:30 p.m.

Explore the Aquarium while discovering new education resources and old friends. NOAA's Ocean Explorer website, research and curricula will be highlighted, as well as resources to support marine curricula. Representatives from state and federal organizations will be providing additional instructional materials. Refreshments and great door prizes provided. Free for all marine educators and a guest.

To register for the Workshop or the Marine Educators' Night please call: 440-9011 or email reservations@waquarium.org

The Coconut Island workshop and Marine Educators' Night are both sponsored by NOAA's Ocean Explorer Program and the National Marine Sanctuary Foundation.
